## Lowry Engineering- Future of Engineering

**\$1000**

**Date Awarded: April 30, 2019**

### **Scholarship Description**

Lowry Engineering out of Fargo, ND is excited to announce a scholarship opportunity for high school seniors from ND or MN pursuing a career and higher education in the field of engineering. Lowry Engineering has established a tuition scholarship program to assist qualified students in obtaining degrees from accredited academic institutions of higher learning specific to the field of engineering for the purpose of continuing growth and education around quality leadership in engineering for the states of North Dakota and Minnesota.

### **Directions to apply for scholarship:**

In order to be considered for this scholarship, the high school senior must write a letter of intentions as well as a 500 word essay. The letter of intention must include current GPA (minimum of 3.5), high school location, previous and current class information for studies related to the field of engineering (math, science, physics, project management, etc.) as well as additional extra curriculums and/or hands on experimentation related to engineering. Letter of intent will also include career goals and plans to include college and field work. The 500 word essay topic will include one community concern and/or challenge that can be solved or supported by careers and solutions provided by engineers in the states specific to North Dakota and Minnesota (examples may include but are not limited to flooding, growth, development, women in STEM leadership, city planning, technology etc.) Scholarship will be awarded to the individual with the most compelling, creative and forward thinking essay as determined by the scholarship committee of Lowry Engineering.

Please submit letter of intent and essay by April 1<sup>st</sup>, 2019 to Lowry Engineering.
